

RFOAM

THERMAL INSULATED POLYETHYLENE FOAM

HEAVY DENSITY R FOAM

.5" - 12" *laminated plank*

Enhanced thermal insulation provides additional performance characteristics to traditional laminated plank. A cost-effective method of providing shock resistance in combination with thermal insulation.

SILVER

HEAVY DENSITY R FOAM

.5" x 48" x 125' *roll*

An alternative to laminated plank, R Foam is available in roll stock. Moisture-resistant, resilient, and non-abrasive. Increased thermal insulation coupled with the flexibility of polyethylene foam.
